

How It Began...

How It Began...

2018 was my family's first Christmas home since my son, Thomas Fletcher, had died from an overdose. As I was decorating the house for the holiday, I came across our stockings. I was hit with a wave of panic and grief; What should I do with my son's stocking? Leave it in the basement as if he never existed? Do I hang it and leave it empty? If I fill it, what do I do with the contents? My daughter had a wonderful idea... Fill it and donate it to someone like Thomas... someone in need. It was then that the Angel Stocking Project was born.

Since 2018, the Angel Stockings Project has grown from 70 stuffed stockings to over 1000 in 2023. These stockings have spread hope and cheer to over five centrally located counties in New York State.

Please consider donating a filled stocking or an item(s) to help fill one
